

NEAETC/CDC Workplan

Brianne Fitzgerald, NP, MPH

Goal

- To expand the number of community based primary care clinicians that routinely perform HIV risk assessments, screening/testing and diagnosis of high risk populations @ DPH/NEAETC mutually agreed upon sites

MA and CT

- Bay State Med Center
- Boston Med Center
- Brockton NHC
- Dimock CHC
- Codman Sq CHC
- Holyoke HC
- Mattapan CHC
- Lynn CHC
- Roxbury Comp HC
- HIV Innovations
- Community Health Services
- Cornell Hill Scott HC
- Potential sites 2011-12
 - Norwalk CHC
 - Burgdorf Clinic, Hartford
 - East Hartford CHC
 - Charter Oak HC

Risk/Benefit issues

- No CDC specific funding for 4 other states.
- Confusion over how monies are spent
- Communications issues between partners can be challenging
- Different funding cycles
- Local Performance sites without specific CDC dollars can use some of their core funding to continue HIV testing initiatives.

Future issues

- As monies disappear, how do we keep testing issues on the forefront?
- What about sites where testing is limited?
 - Mental health programs
 - Dental offices
